

JANA CHARL

Chain Necklace and Yellow Skirt

Metal sculpture

8" x 34"

"Chain Necklace" is a sculpture that I created out of scrap metal utilizing welding tools for ranch workers. Emphasizing curves that distinguish and define women, I seek to engage the viewer with my sense of playfulness and to evoke thoughts on how women are perceived.

Biography:

Jana Charl is a native Californian with four sisters. "Capturing the Wonder of Women" is the thread that weaves her artwork together. Her sculptures and paintings have been exhibited in California and Zurich, Switzerland.
